MIND PATROL

About us

Thrash Metal, label «In Your Face», meets catchy melodies and sing-along-vocals in the choruses - that's Mind Patrol. The Swiss quartet wanders on the ridge between crunchiness and complexity and has earned a reputation as an energetic live band. With the debut album "Against All Predictions", released in 2018, the band received many great reviews and was thus able to attract international attention.

Live experience

Mind Patrol have played over 80 gigs since 2014. They supported international bands like Raven, Skull Fist, Tim "Ripper" Owens", Night Demon, Evil Invaders, Stallion, Cauldron, Striker or Dust Bolt. They have also played with established Swiss metal acts like Poltergeist, Battalion, Gonoreas, Burning Witches, Comaniac or Hellvetica as well as some headliner shows and festival shows in different countries in Europe.
